SHui Final meeting for stakeholders July 12th 2022

Hybrid format:

Physical meeting: Delegation of the Andalusian Government in Brussels
Rue d'Arlon 25, Bruxelles 1050

Monday, July 12th, 2022

Section 1: Main results, 9:00-10:45

9:00-09:15 Welcome & general introduction. Project coordinator. Jose Gomez (IAS-CSIC, Spain)

9:15-9:45 Actual potential of deficit irrigation, sensors & differentiated spatial management to optimise water use under droughts. Speaker: Juan Jose Alarcón (CEBAS-CSIC, Spain)

9:45- 10:00 Actual potential of conservation agriculture & green cover crops in rotation to optimise soil water retention in annual crops. Speaker: Tomas Dostal (CTU, Czech Republic)

10:00- 10:15 Cost Benefit Analysis and carbon/water footprint for specific agricultural systems across countries and farm typologies. Speaker: Gianni Quaranta (UNIBAS-MEDES, Italy)

10:15- 10:30 Regional crop modelling for evaluating water use in agriculture. Speaker: Gabrielle de Lannoy (KU Leuven, Belgium)

10:30-10:45 Training and co-operation in large EU China projects - lessons learned. Speaker: Ian Dodd (U Lancaster, UK)

Coffee break: 10:45-11:30

Section 2: Key results and discussion, 11:30-13:30

11:30-11:45

Key policy recommendations from SHui. Speaker: Rosanna Salvia (UNIBAS-MEDES, Italy)

Round Table

Moderator: Jose Gomez (IAS-CSIC, Spain)

11:45-13:30 Future of optimization of water use in agriculture. Drivers and identification of gaps in knowledge and implementation.
